### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a method of administering or aspirating material from an eye of a patient, with the steps including piercing the eye with a piercing member to cause the initial opening in the eye membrane as well as maneuvering the piercing member through the vitreous humor of the eye and then inserting the treatment cannula through the vitreous humor towards the treatment site, which will be pierced by the treatment cannula for treatment.

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

The cited prior art fails to show the piercing member and the treatment cannula going through the vitreous humor of the eye. The previous cited prior art fails to disclose a piercing member causing the initial puncture into the eye. The previous methods deal with an incision being performed prior to insertion of the treatment device and this is not the case in the instant application because of the size and dimensions of the piercing member and treatment cannula.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW F. DESANTO whose telephone number is (571)272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.
